## ABOUT THE INSTRUCTOR

Rod Farrar is an accomplished risk consultant with extensive experience in the delivery of professional consultancy services to Government, corporate and not-for-profit sectors.

Rod's knowledge of the Risk Management domain was initially informed through his 20 years service as an Army Officer in varying Project, Security and Operational roles. Subsequent to that, Rod has spent seven years as a professional risk manager and is a Certified Practising Risk Manager.

Rod's Risk Management expertise is highly sought after as is the insight he provides in his risk management training and workshop facilitation.

Rod is the Principal of Paladin Risk Management Services, a Canberra-based specialist risk management consultancy that undertakes work as diverse as:

- Assessment of organisational risk maturity (risk audits);
- Development and implementation of risk management frameworks;
- Development and conduct of risk management training; and
- Facilitation of risk management workshops.

Rod has lectured at the University of Canberra, has been on the assessment panel for Certified Practising Risk Managers as well as speaking at a range of conferences and forums. In addition, Rod was contracted by the Risk Management Institution of Australasia to develop and deliver a two day risk workshop across Australia and New Zealand. This course was highly acclaimed attracting participants from as far away as Ireland.

Rod is passionate about risk management and the benefits it can bring to an organisation and he brings this passion to his training.

## DELIVERY

The Paladin Risk Management Academy's Advanced Diploma of Governance Risk and Compliance will be delivered in one intensive four day block. After this intensive period, participants will have six months to complete the assessment activities, at which point they will be awarded the Diploma.

# SUBJECT OVERVIEWS

**The Advanced Diploma of Governance Risk and Compliance contains 9 core units.**

## **Monitor Corporate Governance Activities**

FNSACC604A

This unit describes the performance outcomes, skills and knowledge required to research corporate governance reporting trends, examine corporate governance standards and practices, and review compliance to develop and implement processes and procedures for meeting corporate governance obligations.

## **Develop and Implement Strategic Plans**

BSBMGT616A

This unit applies to individuals working in senior roles in the organisation, who have responsibility for ensuring that the organisation is positioned to ensure its long term viability and success. The unit covers the requirements for analysing the organisation's present position, and for developing specific actions and initiatives that will be undertaken by people working in various roles.

## **Provide Leadership across the Organisation**

BSBMGT605B

This unit applies to senior managers who have a role in inspiring and motivating others to achieve organisational goals and to model professionalism in their organisation and industry. Leadership is seen in the context of the organisational mission. Business ethics are also addressed in this unit.

## **Undertake Enterprise Risk Management**

PSPMNGT704A

This unit covers development of a risk management Program within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. It includes influencing organisational culture and providing strategic direction in risk management.

## **Manage Risk**

PSPMNGT608B

This unit covers maximising results and minimising consequences for a business unit activity by managing risk. It includes establishing the risk management context, planning for risk management, managing risk and evaluating the risk management plan. This unit applies to individuals who are working in positions of authority and are approved to implement change across the organisation, business unit, program or project area.

They may or may not have responsibility for directly supervising others.

## **Develop and Create Compliance Requirements**

BSBCOM602B

This unit applies to managers and internal or external consultants of an organisation responsible for the development and creation of internal compliance requirements for the organisation, including standards, codes of practice, procedures and policies.

## **Plan and Establish Compliance Management Systems**

BSBCOM603B

This unit applies to a chief executive officer or senior manager in a small business, and to a senior manager and compliance section manager in larger organisations, who have specific responsibility for the planning, development and operation of a compliance program/management system.

## Establish and Review the Business Continuity Management Framework and Strategies

BSBCON701A

This unit describes the performance outcomes, skills and knowledge required to establish and review the formal and/or informal business continuity management framework and strategies for an organisation

This unit is for individuals working in positions of authority who have the responsibility for embedding business continuity management into corporate or organisational levels of a business.

This unit addresses the knowledge and processes necessary to establish, monitor and review the requirements of the business continuity management framework. The framework is important as it provides the processes and resources to ensure the continued achievement of critical business objectives in the event of a disruption (even at diminished capacity) until full functionality is restored.

## Develop and Maintain Business Continuity Plans

BSBCON601B

This unit describes the performance outcomes, skills and knowledge required to work within the business continuity framework to develop and implement business continuity plans in order for an organisation to manage risk and ensure business resilience when faced with a disruptive event.

This unit is for individuals working in positions of authority who are approved to implement change across the division, business area, program area or project area.

This unit addresses the knowledge and processes necessary to develop and maintain business continuity requirements. Business continuity awareness and planning help the organisation to identify barriers and/or interruptions, and to determine how the organisation will achieve critical business objectives (even at diminished capacity) until full functionality is restored.

The focus is on risk and vulnerability assessment, business impact assessments, and business continuity and communication plans.
