- Manage Procurement Risk
- Conduct Fraud Risk Assessments
- Develop Fraud Control Plans
- Manage Project Risk
- Apply Principles of OHS Risk Management
- Manage Hazards in the Workplace
- Develop and maintain business continuity plans

The Paladin Risk Management Academy Diploma of Risk Management and Business Continuity is fully accredited by the Australian Skills Quality Authority (ASQA).

Read on and discover why this is the only risk management course you will ever need.

About the instructor

Rod Farrar is an accomplished risk consultant with extensive experience in the delivery of professional consultancy services to Government, corporate and not-for-profit sectors.

Rod's knowledge of the Risk Management domain was initially informed through his 20 years service as an Army Officer in varying Project, Security and Operational roles. Subsequent to that, Rod has spent seven years as a professional risk manager and is a Certified Practicing Risk Manager.

Rod's Risk Management expertise is highly sought after as is the insight he provides in his risk management training and workshop facilitation.

Rod is the Principal of Paladin Risk Management Services, a Canberra-based specialist risk management consultancy that undertakes work as diverse as:

- Assessment of organisational risk maturity (risk audits);
- Development and implementation of risk management frameworks;
- Development and conduct of risk management training; and
- Facilitation of risk management workshops.

"This course was highly acclaimed attracting participants from as far away as Ireland."

Rod has lectured at the University of Canberra, has been on the assessment panel for Certified Practicing Risk Managers as well as speaking at a range of conferences and forums. In addition, Rod was contracted by the Risk Management Institution of Australasia to develop and deliver a two day risk workshop across Australia and New Zealand. This course was highly acclaimed attracting participants from as far away as Ireland.

Rod is passionate about risk management and the benefits it can bring to an organisation and he brings this passion to his training.

Delivery

The Paladin Risk Management Academy's Diploma of Risk Management and Business Continuity will be delivered in one intensive four day block. After this intensive period, participants will have six months to complete the assessment activities, at which point they will be awarded the Diploma.

Subject Overviews

The Diploma of Risk Management and Business Continuity contains 9 core units.

Undertake Enterprise Risk Management

PSPMNGT704A

This unit covers development of a risk management Program within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. It includes influencing organisational culture and providing strategic direction in risk management.

Manage Risk

BSBRK501B

This unit covers maximising results and minimising consequences for a business unit activity by managing risk. It includes establishing the risk management context, planning for risk management, managing risk and evaluating the risk management plan.

This unit applies to individuals who are working in positions of authority and are approved to implement change across the organisation, business unit, program or project area. They may or may not have responsibility for directly supervising others.

Coordinate Risk Management

PSPGOV517A

This unit covers coordination of risk management in the business unit/organisation. It includes maintaining infrastructure and processes, supporting staff to manage risk, facilitating risk recovery, and monitoring and reviewing risk management.

Manage Procurement Risk

PSPPROC505A

This unit covers the ability to manage risks associated with all stages of procurement. It includes assessing risk, and preparing, implementing and reviewing a risk management plan.

Conduct Fraud Risk Assessments

PSPFRAU504B

This unit covers the implementation of a fraud and corruption risk management process that may be the responsibility of organisational staff or contractors. It includes conducting fraud and corruption risk assessment and reviewing the processes involved in the risk assessment in line with standard risk management processes.

Fraud in the unit title incorporates both fraud and corruption.

Develop Fraud Control Plans

PSPFRAU505B

This unit covers planning actions in response to the organisation's fraud/corruption control strategy, either the preparation of a specific fraud/corruption control plan based on a risk assessment or as an extension of the organisation's documentation of its fraud/corruption control strategy.

The unit includes identifying areas for action, gaining commitment to the plan, identifying qualitative and quantitative performance indicators, and documenting and disseminating the fraud/corruption control plan.

Fraud in the unit title incorporates both fraud and corruption.

Manage Project Risk

BSBPMPG508A

This unit describes the performance outcomes, skills and knowledge required to manage risk within a project to avoid adverse effects on project outcomes. It covers determining, monitoring and controlling project risks, and assessing risk management outcomes.

This unit applies to an individual who is clearly and solely responsible for the management and leadership of a complex project, either as an employee of an organisation or an external consultant.

Apply Principles of OHS Risk Management

BSBOHS504B

This unit applies to individuals with managerial responsibility for providing a systematic approach to hazard identification, risk assessment and risk control, with the emphasis on elimination or, where this is not possible, minimisation of risk. It also includes conceptual models for understanding the nature of hazards.

Develop and Maintain Business Continuity Plans

BSBCON601B

This unit describes the performance outcomes, skills and knowledge required to work within the business continuity framework to develop and implement business continuity plans in order for an organisation to manage risk and ensure business resilience when faced with a disruptive event.

This unit is for individuals working in positions of authority who are approved to implement change across the division, business area, program area or project area.

This unit addresses the knowledge and processes necessary to develop and maintain business continuity requirements. Business continuity awareness and planning help the organisation to identify barriers and/or interruptions, and to determine how the organisation will achieve critical business objectives (even at diminished capacity) until full functionality is restored.

The focus is on risk and vulnerability assessment, business impact assessments, and business continuity and communication plans.
