# 10711NAT – Advanced Diploma of Governance, Risk and Compliance

Sound governance. All organisations are required to have it but what does it look like and how is it achieved? There are so many definitions of governance and equally as many models, however, organisations still find it difficult to fully comprehend the entirety of their responsibilities.

That has now changed.

Paladin Risk Management Services provides a straightforward and practical approach that addresses Governance as a system of systems where the linkages between organisational programs holds the key.

Participants will gain knowledge and an understanding of: Governance structures (including Boards and Committees), organisational planning, policy frameworks, enterprise risk management, compliance management, internal audit, managing the internal control environment, performance management and organisational resilience.

This is the only Governance course you will ever need and will position you to make meaningful and sustainable change within your organisation.

The Governance module has a significant focus on planning, both at the Strategic and Business level and specifically addresses the role of planning in setting the foundations for programs such as risk management, compliance, performance management and audit.

The key component of the Governance Module is the demonstration of the linkages between all of the key Governance functions and how, if there are deficiencies in one or more of these programs, Governance within the organisation is significantly impacted.

The Governance module sets the foundations for the more detailed coverage of enterprise risk management, compliance management and organisational resilience in later modules.
