Introducing the risk management course you've been waiting for

Paladin Risk Management Services'

10712NAT – Certificate IV in Risk Management Essentials

Have you been wanting to broaden your risk management qualifications but have found that all of the Certificate IV level courses are based around only one aspect of risk management like security, safety or environmental risk management?

Have you been wanting to undertake a broad-based Risk Management Diploma aimed at giving you the skills necessary to manage risk in any context?

Paladin Risk Management Services gives you what you asked for... a broad-based Certificate IV Program aimed at risk management and business continuity professionals or those aspiring to fill roles in these industries.

I was extremely impressed by the quality of the presentation of this course. The tutor has got enormous amounts of energy. The syllabus of it covers all the aspects detailed in ISO 31000 but what's special about this course is the little glue on bits that turn those requirements into a business process that is useful. That's what is special about this course and I appreciate that. Well done.

The Certificate IV in Risk Management Essentials is made up of Eleven Core Units:

BSBPMG418	Apply project stakeholder engagement techniques
BSBRSK401	Identify risk and apply risk management processes
BSBXTW401	Lead work teams and groups
PSPGEN027	Gather and analyse information
RMERSK401	Design and implement a plan for the integration of risk management principles into a business unit
RMERSK402	Respond to the findings of a risk management audit

Paladin Risk Management Service's Certificate IV in Risk Management Essentials is fully accredited by the Australian Skills Quality Authority (ASQA) under the Australian Qualifications Framework (AQF).

SUBJECT OVERVIEWS

The **six** core units of the Certificate IV in Risk Management Essentials are delivered over **two** sessions.

SESSION 1 - ENTERPRISE RISK MANAGEMENT

This session covers development of a risk management Framework within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. This session includes topics such as:

- Elements of an effective risk management framework
- Gaining senior management mandate, commitment and leadership
- Developing the organisation's risk appetite and tolerance
- Developing the risk criteria for the organisation
- Integration of risk management into the strategic planning process
- Integration of risk management into other organisational programs such as compliance, internal audit and performance management
- Measuring risk management performance

Participants will be guided through the elements of an effective enterprise wide risk management framework and will be provided with the insights necessary to successfully integrate the framework into their organisation.

Assessment Activity

The assessment activities for this session requires participants to:

- Conduct a maturity assessment on the risk management framework for their organisation
- Develop a Risk Management Plan

I just finished the Diploma of Risk Management. I've also completed previously the Project Management and Business Continuity aspects of the course, a Post Graduate Certificate in Risk Management. I found that this coursesomething that I hadn't previously done and I found it quite useful. And tying crystallizes the elements of the ISO 31000 far better than the University that all into a Risk Management context was again, quite useful and has good studies. The practical work that was done was quite beneficial and I enjoyed application for workplace.

DELIVERY LOCATIONS

The Diploma of Risk Management and Business Continuity is delivered at the following locations throughout the year:

- Sydney
- Melbourne
- Canberra
- Brisbane

In-house courses are also available for groups of more than eight (8)

SESSION 2 - MANAGING RISK - A PRACTICAL APPROACH

This unit covers maximising results and minimising consequences for an organisation by managing risk.

Participants will be guided through the ISO 31000 Risk Management Process utilising a range of tools and techniques that provide a practical methodology for adoption into their organisations.

Some of the techniques participants will learn include:

- How to identify risks using a Risk Breakdown Structure
- The importance of control identification and control effectiveness in the risk management process
- How to analyse risk so as to ensure the risk level is appropriate
- Risk treatment options available and how and when they should be used
- How to develop a cost benefit analysis for funding risk management activities

At the end of this session, participants will have the skills and confidence to enable them to conduct effective risk workshops within their organisation.

Assessment Activity

The assessment activities for this session requires participants to:

- Develop a risk register for their organisation
- Assess the effectiveness of current controls

I've really enjoyed the course and it's been a wonderful introduction for me to risk management. The course itself had a certain granularity that just made it that much easier to learn and acquire the skills that I need that will integrate and incorporate into my other profession as a Project Manager. I'm really delighted and really happy, so thanks again.
