10862NAT – Certificate IV in Risk Management Essentials

Qualifications issued by:

**PROFESSIONAL
SECURITY & RISK
INSTITUTE**

No Prerequisites Required to Attend the Certificate IV course

RTO Number: 45173

Introducing the risk management course you've been waiting for

Paladin Risk Management Services'

10862NAT – Certificate IV in Risk Management Essentials

Have you been wanting to broaden your risk management qualifications but have found that all of the Certificate IV level courses are based around only one aspect of risk management like security, safety or environmental risk management?

Have you been wanting to undertake a broad-based Risk Management Diploma aimed at giving you the skills necessary to manage risk in any context?

Paladin Risk Management Services gives you what you asked for... a broad-based Certificate IV Program aimed at risk management and business continuity professionals or those aspiring to fill roles in these industries.

The Certificate IV in Risk Management Essentials is made up of Six Core Units:

- | | |
|--------------------|--|
| BSBPMG429 | Apply project stakeholder engagement techniques |
| BSBOPS403 | Identify risk and apply risk management processes |
| BSBXTW401 | Lead and facilitate a team |
| PSPGEN027 | Gather and analyse information |
| NAT10862001 | Design and implement a plan for the integration of risk management principles into a business unit |
| NAT10862002 | Respond to the findings of a risk management audit |

Paladin Risk Management Service's Certificate IV in Risk Management Essentials is fully accredited by the Australian Skills Quality Authority (ASQA) under the Australian Qualifications Framework (AQF).

I was extremely impressed by the quality of the presentation of this course. The tutor has got enormous amounts of energy. The syllabus of it covers all the aspects detailed in ISO 31000 but what's special about this course is the little glue on bits that turn those requirements into a business process that is useful. That's what is special about this course and I appreciate that. Well done.

ABOUT THE PRESENTER

Rod Farrar is the principal of Paladin Risk Management Services and will be delivering your course.

Rod is an accomplished risk consultant with extensive experience in the delivery of professional consultancy services to Government, corporate and not-for-profit sectors.

Rod's Risk Management expertise is highly sought after as is the insight he provides in his risk management training and workshop facilitation. Rod was recognised by the Risk Management Institution of Australia as the **2016 Risk Consultant of the Year** and one of the first five **Certified Chief Risk Officers** in Australasia.

Rod has written three eBooks, including the highly acclaimed *Revolution de Risque – Challenging the Traditional way we Manage Risk*. He has also spoken at conferences both in Australia and abroad.

Rod is passionate about risk management and the benefits it can bring to an organisation and he brings this passion to his training.

Read on and discover why this is the ONLY risk management course you will ever need

DELIVERY OPTIONS

There are two delivery options for the Certificate IV in Risk Management Essentials:

FACE TO FACE

3days in person training

LIVE STREAMING

Live streaming in four blocks:

- 1-day Enterprise Risk Management
- 2-days Manage Risk

There will be approximately 2 weeks between each session.

SELF-PACED DISTANCE

Video content provided in addition to training materials.

Participants have up to **18 months** from commencing the course to complete the assessment activities – **regardless of the delivery method**, at which point they will be awarded the Certificate IV.

SUBJECT OVERVIEWS

The **six** core units of the Certificate IV in Risk Management Essentials are delivered over **two** sessions.

MODULE 1 - ENTERPRISE RISK MANAGEMENT

This session covers development of a risk management Framework within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. This session includes topics such as:

- Elements of an effective risk management framework
- Gaining senior management mandate, commitment and leadership
- Developing the organisation's risk appetite and tolerance
- Developing the risk criteria for the organisation
- Integration of risk management into the strategic planning process
- Integration of risk management into other organisational programs such as compliance, internal audit and performance management
- Measuring risk management performance

Participants will be guided through the elements of an effective enterprise-wide risk management framework and will be provided with the insights necessary to successfully integrate the framework into their organisation.

Assessment Activities

The assessment activities for this session requires participants to:

- Conduct a maturity assessment on the risk management framework for their organisation
- Develop a Risk Management Plan

I just finished the Diploma of Risk Management. I've also completed previously the Project Management and Business Continuity aspects of the course, a Post Graduate Certificate in Risk Management. I found that this course something that I hadn't previously done and I found it quite useful. And tying crystallizes the elements of the ISO 31000 far better than the University that all into a Risk Management context was again, quite useful and has good studies. The practical work that was done was quite beneficial and I enjoyed the application for the workplace.

DELIVERY LOCATIONS

The Diploma of Risk Management and Business Continuity is delivered at the following locations throughout the year:

- Sydney
- Melbourne
- Canberra
- Brisbane

In-house courses are also available for groups of more than eight (8)

MODULE 2 - MANAGING RISK - A PRACTICAL APPROACH

This unit covers maximising results and minimising consequences for an organisation by managing risk.

Participants will be guided through the ISO 31000 Risk Management Process utilising a range of tools and techniques that provide a practical methodology for adoption into their organisations.

Some of the techniques participants will learn include:

- The importance of capturing the “right” risks in a risk register
- The importance of control identification and control effectiveness in the risk management process
- How to analyse risk so as to ensure the risk level is appropriate
- Risk treatment options available and how and when they should be used

At the end of this session, participants will have the skills and confidence to enable them to conduct effective risk workshops within their organisation.

Assessment Activities

The assessment activities for this session are:

- Develop a Risk Register for an organisation.
- Assess the effectiveness of current controls

I've really enjoyed the course and it's been a wonderful introduction for me to risk management. The course itself had a certain granularity that just made it that much easier to learn and acquire the skills that I need that will integrate and incorporate into my other profession as a Project Manager. I'm really delighted and really happy, so thanks again.
