10712NAT - Diploma of Risk Management and Business Continuity

Qualifications issued by:

PROFESSIONAL
SECURITY & RISK
INSTITUTE

RTO Number: 45173

No Prerequisites Required to Attend the Diploma Course (Attendance at Certificate IV not required to attend Diploma)

Have you been wanting to broaden your risk management qualifications but have found that all of the Diploma level courses are based around only one aspect of risk management like security, safety or environmental risk management?

Have you been wanting to undertake a broad-based Risk Management Diploma aimed at giving you the skills necessary to manage risk in any context?

Paladin Risk Management Services gives you what you asked for… a broad-based Diploma Program aimed at risk management and business continuity professionals or those aspiring to fill roles in these industries.

I was extremely impressed by the quality of the presentation of this course. The tutor has got enormous amounts of energy. The syllabus of it covers all the aspects detailed in ISO 31000 but what's special about this course is the little glue on bits that turn those requirements into a business process that is useful.
That's what is special about this course and I appreciate that. Well done.

The Diploma of Risk Management and Business Continuity is made up of Eleven Core Units:

PSPMGT104	Undertake Enterprise Risk Management
PSPGEN058	Coordinate Risk Management
PSPPCM010	Manage Procurement Risk
PSPFRU005	Conduct Fraud Risk Assessments
PSPFRU006	Develop Fraud Control Plans
BSBOPS504	Manage Risk
BSBPMG536	Manage Project Risk
BSBWHS516	Contribute to developing, implementing and maintaining an organisation's WHS management system
BSBSTR603	Develop business continuity plans
BSBSTR803	Establish business continuity management strategies
SITXCRI002	Manage a Business Continuity Crisis

Paladin Risk Management Service's Diploma of Risk Management and Business Continuity is fully accredited by the Australian Skills Quality Authority (ASQA) under the Australian Qualifications Framework (AQF).

ABOUT THE PRESENTER

Rod Farrar is the principal of Paladin Risk Management Services and will be delivering your course.

Rod is an accomplished risk consultant with extensive experience in the delivery of professional consultancy services to Government, corporate and not-for-profit sectors.

Rod's Risk Management expertise is highly sought after as is the insight he provides in his risk management training and workshop facilitation. Rod was recognised by the Risk Management Institution of Australia as the **2016 Risk Consultant of the Year** and one of the first five **Certified Chief Risk Officers** in Australasia.

Rod has written three eBooks, including the highly acclaimed *Revolution de Risque – Challenging the Traditional way we Manage Risk*. He has also spoken at conferences both in Australia and abroad.

Rod is passionate about risk management and the benefits it can bring to an organisation and he brings this passion to his training.

Read on and discover why this is the ONLY risk management course you will ever need

There will be approximately 2 weeks between each session.

SELF-PACED DISTANCE

Video content provided in addition to training materials.

Participants have up to **24 months from commencing the course** to complete the assessment activities **– regardless of the delivery method**, at which point they will be awarded the Diploma.

SUBJECT OVERVIEWS

The **eleven** core units of the Diploma of Risk Management and Business Continuity are delivered over **six** modules.

MODULE 1 - ENTERPRISE RISK MANAGEMENT

This session covers development of a risk management Framework within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. This session includes topics such as:

Elements of an effective risk management framework

Gaining senior management mandate, commitment and leadership

Developing the organisation's risk appetite and tolerance

Developing the risk criteria for the organisation

Integration of risk management into the strategic planning process

Integration of risk management into other organisational programs such as compliance, internal audit and performance management

Measuring risk management performance

Participants will be guided through the elements of an effective enterprise wide risk management framework and will be provided with the insights necessary to successfully integrate the framework into their organisation.

Assessment Activities

The assessment activities for this session requires participants to:

Conduct a maturity assessment on the risk management framework for their organisation

Develop a Risk Management Plan

> *I just finished the Diploma of Risk Management. I've also completed previously the Project Management and Business Continuity aspects of the course, a Post Graduate Certificate in Risk Management. I found that this course something that I hadn't previously done and I found it quite useful. And tying crystallizes the elements of the ISO 31000 far better than the University that all into a Risk Management context was again, quite useful and has good studies. The practical work that was done was quite beneficial and I enjoyed the application for the workplace.*

DELIVERY LOCATIONS

The Diploma of Risk Management and Business Continuity is delivered at the following locations throughout the year:

- Sydney
- Melbourne
- Canberra
- Brisbane

In-house courses are also available for groups of more than eight (8)

MODULE 2 - MANAGING RISK - A PRACTICAL APPROACH

This unit covers maximising results and minimising consequences for an organisation by managing risk.

Participants will be guided through the ISO 31000 Risk Management Process utilising a range of tools and techniques that provide a practical methodology for adoption into their organisations.

Some of the techniques participants will learn include:

- The importance of capturing the "right" risks in a risk register
- The importance of control identification and control effectiveness in the risk management process
- How to analyse risk so as to ensure the risk level is appropriate
- Risk treatment options available and how and when they should be used

At the end of this session, participants will have the skills and confidence to enable them to conduct effective risk workshops within their organisation.

Assessment Activity

The assessment activities for this session are:

- Develop a Risk Register for an organisation.
- Assess the effectiveness of current controls

MODULE 3 - MANAGING PROJECT AND PROCUREMENT RISK

This session consolidates the knowledge gained during session 2 and applies it to project risk management. Projects are inherently risky and this session guides participants through not only the life cycle of a project, but, more importantly, the application of risk management throughout that life cycle.

One of the key focuses of this session is the demonstration of how the lack of risk management in the planning phases of the project can (and does) lead to project failure.

Assessment Activity

The assessment activity for this session is to develop a Project Risk Register.

MODULE 4 - MANAGING FRAUD RISK

This session steps through the unique aspect of managing fraud within an organisation, including; the fraud prevention strategies that need to be adopted by organisations; fraud detection strategies and the actions that should be taken once fraud is detected. The session also provides tools and techniques to assess the effectiveness of the fraud program within organisations.

Assessment Activity

The assessment activities for this session are to conduct an assessment of the effectiveness of a fraud control program and develop a report for management.

I've really enjoyed the course and it's been a wonderful introduction for me to risk management. The course itself had a certain granularity that just made it that much easier to learn and acquire the skills that I need that will integrate and incorporate into my other profession as a Project Manager. I'm really delighted and really happy, so thanks again.

MODULE 6 - MANAGING WHS RISK

This session steps participants through the process of managing risks within an organisation that, if they occur, threaten the health and safety of workers, visitors and the wider community.

Assessment Activity

The assessment activity for this session is to develop a Risk Register for risks with safety consequences.

MODULE 7 - BUSINESS CONTINUITY MANAGEMENT

This session provides the skills and knowledge required to work within the business continuity framework to develop and implement business continuity plans in order for an organisation to manage risk and ensure business resilience when faced with a disruptive event.

The session guides participants through the Business Continuity Management process. It encapsulates the identification of Critical Business Functions, threat and vulnerability analysis, the development of continuity strategies and planned responses as well as the testing and maintenance of the Business Continuity Plan.

Assessment Activity

The assessment activity for this session is to conduct a Business Impact Analysis and develop Business Continuity Plans for three Critical Business Functions.
